Student Advisory Concerns About Library Hours
Students raised several questions about library hours and the use of the library

- Later hours – Could the library stay open later at the end of term?
- Could we extend hours?
- Need to let students know about space on ground floor to ease some of the crowding
  - Very big signs at the entrance might be noticed
  - Table top signs might be helpful
- Ideas – poll faculty when are they scheduling exams – match patterns of need
  - Library hours should reflect trends for usage

Don Richardson: Presentation on library software
Don Richardson, Associate Director of Technology and E-Resources gave a presentation on the upcoming changes in the library systems and requested feedback from the committee

- Overview of library system situation
  - Too many resources on the web page – may be confusing
  - Too many interfaces – hard to know what to do for an effective search
  - Many students resort to using Google if they can’t find anything else
- Description of new type of software to help guide student searching – “Discovery”
- Demonstration of typical search using new “Discovery” software (Dartmouth)
- Evaluation summary document on the website
  - http://www.wpi.edu/academics/Library/About/systemsevaluation.html
- Suggestions for methods of getting student feedback on the new discovery software
  - IQP/MQP research teams
  - Grad study groups
- Library Web Site Redesign
  - Library staff committee formed
  - Web Office supporting library efforts
  - Input from students needed to help focus the page and emphasize tools
  - Focus groups will be organized soon and committee agreed to participate
