Paul B. Morgan, Esq.,

City.

Dear Sir:-

When our 11 frame was first started, we exchanged with you, four of the die boxes for larger ones, To get the most economical results we find it will be necessary to have more of the larger boxes. We , therefore, wish to order four of the die boxes complete, your pattern # C-173-A.

If you care to exchange with us, we will return the ones we are now using, and if not, please inform us, and we will send our regular order for the die boxes.

We send, to-day, by Mr.Dudley one of the 20" blocks on the 11 frame to have the lip turned down, as we have had considerable trouble with wire slipping upon the block too rapidly.

We had one turned last week at your place, and have just tried it and find that we have, in a measure, the same trouble. Please turn the lip off entirely, as per enclosed sketch and we will see how that works.

Very truly yours

Morgan Spring Co.

Harry Wheeler
