Dear Eric,

Nueva Montana

Rolls

In order that Angus Thomas can get Moorwoods to quote for
the above rolls I have given roll sizes as per Lancashire Steel Mill. As
you see the Roughing Train are up at 16.9/16" diameter and in view of our
recent discussion with Myles these roughing rolls may be reduced to 14.1/2".

The figures will enable us to produce a price for rolls for
Nueva Montana to examine.

<table>
<thead>
<tr>
<th>Roughing Train</th>
<th>Diam. of Barrel</th>
<th>Length of Barrel</th>
<th>Total Length</th>
</tr>
</thead>
<tbody>
<tr>
<td>Stands 1, 2, 3, 4</td>
<td>16.9/16&quot;</td>
<td>32.3/4&quot;</td>
<td>6'7&quot;</td>
</tr>
<tr>
<td>&quot; 5, 6, 7, 8, 9</td>
<td>15.3/16&quot;</td>
<td>32.3/4&quot;</td>
<td>6'7&quot;</td>
