WPI

Post-Graduation Report
Class of 2014
Dear WPI Community:

The WPI Career Development Center (CDC) is pleased to release the Post-Graduation Report for the Class of 2014. With information on over 1,410 of our 1,569 graduates, we have a solid picture regarding WPI students and their successes post-graduation. WPI boasts a success rate of over 90% for all graduates of the class of 2014.

At the bachelor’s degree level, our success rate remains steady at 89.4% of graduates obtaining employment, starting graduate school, and entering the military. Success rates for those with graduate degrees are strong with master’s degree graduates at 91.7% and doctoral degree graduates at 96.0%.

We continue to work with those recent graduates who are still seeking opportunities and encourage them to connect with the CDC. In addition, the CDC provides free, lifelong career services for all alumni of WPI.

Payscale has rated the WPI return-on-investment in the Top 1.5% of all colleges in the United States. WPI ranked 18th out of the 1,312 colleges and universities for ROI. According to data gathered by the CDC, average salaries for WPI graduates in the class of 2014 were:

- Bachelor’s Degree $62,509
- Master’s Degree $69,573
- Doctoral Degree $109,286

We take pride in our role as we assist WPI graduates achieve successes in their careers. In recent years, the Princeton Review has recognized WPI’s Career Development Center as one of the Top 20 career services offices in the United States.

We are proud of the class of 2014 and their many accomplishments. We continually partner with students, employers, faculty and staff to offer innovative programs and services that deliver value for everyone in the WPI community. If you have any questions about this report, please feel free to contact the Career Development Center at 508-831-5260 or cdc@wpi.edu.

Best Regards,

Steve Koppi

Methodology and Glossary of Terms

Methodology:

For this report the Career Development Center (CDC) surveys and/or researches each of WPI’s graduating students that received their degrees in October 2013, February 2014, or May 2014. Information is collected through a variety of channels, with the majority of the information being self-reported by the graduating students.

Students completed surveys indicating their post-graduation plans and average salary information. If students have not reported to the CDC or responded to our phone campaign, then the office outreaches to faculty, staff, and employers for their information. The remaining pool is then researched on LinkedIn and Facebook to determine what information is shared publicly and recently.

In the case of average salaries, the CDC has protected student information by only reporting averages for those majors with two or more graduates providing salary data. In rare instances only one student is in a major and reports their salary. In this case, we have chosen to remove the data from the major presentation to protect student information, but still include the data in the aggregate numbers. With a significant number of respondents, this report provides a very clear and accurate picture of the WPI graduating class.

Glossary of Terms:

Employed Students that select “Employed” have indicated achievement of working full-time post-graduation.

Graduate School Students that select “Graduate School” are pursuing a master’s degree, professional degree, or doctoral degree beyond their completed degree.

Military Some students participate in the ROTC program and continue their professional career with a branch of the US military. Others may enlist separately from the ROTC program.

Still Seeking This selection indicates that a student is still seeking employment or graduate school. The WPI CDC makes a point to continuously outreach to this population.

Success Rate The proportion of graduates for whom the CDC has outcomes data who are employed, in graduate school, or serving in the military.

Knowledge Rate The proportion of graduates for whom the CDC has reasonably reliable career outcomes data (we utilize a variety of sources including surveys, phone campaigns, faculty and staff feedback, social media research, etc.).

Double Majors Double Majors are represented in each program page reported for the Post-Graduation Outcomes. However, these students with two majors are only counted once in the aggregate numbers presented for the class.

NA vs. Zero (0) In each program page, NA means the degree is not offered and zero (0) means that no student graduated in this particular year from the program.
