OIL TEMPERED STEEL SPRINGS  
A SPECIALTY.

July 25, 1893.

Dear Brother:-

*J* The open hearth steel from Cambria Iron Co. we have tested six bundles. In drawing to #12, four broke at #10 and one at #11. It makes good stock to temper but will not answer for harddrawn.

To reassure as to the analysis I have decided to have another sample sent to Babbitt immediately of best stock for harddrawn, either to confirm or otherwise last analysis.

*Yours very truly*  
*F. H. Morgan*

*P.S. I am much better today.*
