Heard a miracle — in Washington.

A Waldo revolution.

Past week really a startling even in Wash. Yet even with a year ago what we’d see if the award $25 of 1976, for a mediecal student in high school. Heaven who was a classic introvert, the public exposure of the past year is enough to shake the system.

Last week had to be a climax of unbelievable proportions.

It all started about 3 weeks ago when the U.S. CFC called me to testify on some proposed legislation sponsored by Sen. Robert F. It’s really a good guy and I like him. But his thinking hasn’t been sorted up in trying to correct a small problem by starting another one too.

It’s just a small one though — only $15 mil for the 1st yr. Many think it might grow like the absolutely useless FEEO (Equal Employment Opportunity) which grew from only 12 mil to 72 mil in a few years.

Anyway, being the last witness of the day — and having the benefit of being the previous witness, including Mr. Ralph Kent, our self-proclaimed social reviver, I became ready enough to engage the Senator in a 10 1/2 flat corduroy.
What a thrill to get in a couple of bills for our private sector - called our free enterprise system. There is hope the bill won't get out of this Trade & Anti-Trust sub committee. The next event was the Wash. state senior two weeks ago.
