We have been advised that Siemag has ordered No-Twist bevel gears from Indiana Gear as duplicates of gears for similar strands on Niederrhein. Even though we now have drawings for carburized No-Twist bevel gears, the J&L drawings revised for carburized gears as ordered for Niederrhein are the best Siemag reference for NKF. The reason for this fact is that considerable translation would be required from our drawings for carburized gears, whereas Siemag has already completed translation of the J&L drawings.

Our order lists should call for the bevels according to the drawing numbers on order 122833 with the addition of the Siemag reference as listed below.

<u>MCCo. No.</u>	<u>Siemag No.</u>	<u>MCCo. No.</u>	<u>Siemag No.</u>
167672	D38/2339	167680	D38/2347
167673	D38/2340	167681	D38/2348
167674	D38/2341	167682	D38/2349
167675	D38/2342	167683	D38/2350
167676	D38/2343	167684	D38/2351
167677	D38/2344	167685	D38/2352
167678	D38/2345	167686	D38/2353
167679	D38/2346	167687	D38/2354

This memo will give Purchasing and the Shop advance notice of a possible request from Indiana for machined blanks. Unfortunately, until we hear from Indiana, we do not know Siemag's intention for spares.

E. W. Randall
