Problem
Peer Learning Assistants (PLAs) vary in how they conduct conferences. This variation affects student performance in calculus.

Solution
To implement weekly meetings between professors and their PLAs. These cover core objectives, soft skills & grading techniques.

Conclusion
Professors & PLAs noticed better communication after a weekly meeting. Students observed little change in PLA teaching methods.

Change in Effective Communication

As a student, my PLA...
“...went over the material with more depth and clarity than before.”
“...seemed more focused on pacing and student participation.”

As a PLA...
“...the meetings helped me keep track of my habits and effectively plan.”
“...I was able to recognize and fix my mistakes.”

As a professor...
“...I like the personal interaction while we clarified and discussed potential problems.”
“...regular meetings are crucial.”

Acknowledgements
Thank you to the WPI professors, PLAs, faculty, and students who participated in our study.
