Problem:
Today's youth lacks knowledge of farming practices and understanding of where their food comes from.

Solution:
Designed a lesson for elementary school students.

Lesson Plan:
- Nutrition
- Plant Anatomy
- Plant Life Cycle
- Planting

Assessment Method:
- Pre and Post Survey
- Planting activity

Assessments:
- Venerini Average Score (%)
  - Plant Anatomy
  - Plant Survival
  - Life Cycle Gardening
  - Nutrition
  - Planting a Seed

  Improvement Mean: 8.0/29
  Standard Deviation: 4.3
  n=19

- Girl Scouts Average Score (%)
  - Plant Anatomy
  - Plant Survival
  - Life Cycle Gardening
  - Nutrition
  - Planting a Seed

  Improvement Mean: 7.3/29
  Standard Deviation: 4.3
  n=7

Acknowledgements:
Special thanks to Brownie troop 65006 and Venerini Academy for allowing us to conduct our research with them.
