Dear Duane:

Enclosed herewith are two copies of a revised draft of the proposed Agreement between Honeywell and Statitrol. A copy is being sent directly to Bill Horan also.

I had originally intended to send both of you a marked copy indicating the places where changes have been made from the draft which Tom Bellinghausen sent to you on August 5. It developed, however, that so many changes have been made that a marked copy would not really be of any substantial help.

Practically all of the changes were discussed in our meeting on Wednesday, but I have taken the liberty of making a few non-substantive changes or additions, such as the insertion of a "notices" provision which is now paragraph 17 of the Agreement.

As soon as you and Bill have reviewed this draft, if you will let us have any suggestions or additions you care to make, we will then prepare a complete copy of the Agreement, with all the schedules, and submit it to you.

Best regards,

WJLEDBETTER: NN
