Robert Harvey Collection

Robert J. Harvey Collection

MS 66_00

Personal Papers

ABSTRACT: Robert J. Harvey received his Ph.D. from WPI in biomedical engineering in 1970. Records related to two companies he founded or co-founded make up the largest part of the collection: Miralin, the "miracle fruit," and Thoratec, maker of the LVAD, left ventricular assist device, where he was CEO from 1976-1996.

BIOGRAPHICAL SKETCH: Robert J. Harvey was born in Pittsburgh, Pennsylvania in 1932. After high school, he entered West Point and became a lieutenant in the Corps of Engineers. He served in Korea as part of the 44th Engineer Battalion. He married Suzanne Richardson in 1956. He resigned his commission as a first lieutenant in 1957, and received a Master's degree in Nuclear Physics from Drexel Institute of Technology in 1959.

He worked for Martin Company and then Thermo Electron, where he designed the first nuclear-powered artificial heart, for which he received a patent in 1968. He left Thermo Electron to complete his Ph.D. in Biomedical Engineering at WPI, receiving the degree in 1970. His thesis was on Miralin, the "miracle fruit." He founded the Miralin company, which tested and marketed Miralin, a natural sweetener which diabetics and others wanting to reduce calories could use. The company closed after being denied FDA approval for the product.

In 1976, Dr. Harvey co-founded and became CEO of Thoratec Corporation in California, a company formed as a result of the purchase of the Research and Development division of Searle Cardiopulmonary Systems, Inc. By the mid-1980s, Thoratec's Ventricular Assist Device was being implanted in patients while they waited for heart transplants. Dr. Harvey remained CEO and Chairman of the Board there until his retirement in 1996.

For about ten years beginning in 1988, while Dr. Harvey was working at Thoratec, he and his wife, Sue, served as resident fellows at a residence hall at Stanford University, where Sue taught. They wrote a book, "Virtual Reality and the College Freshman," describing their experiences and providing guidance to students and their parents.

In 1997, Dr. Harvey served as entrepreneur-in-residence at WPI, and his wife, Sue, was a professor and tutor in the Writing Center at WPI.

In their retirement, Bob and Sue Harvey taught continuing education courses, and continued to be active and engaged.

Sue died in July 2010 and Bob died in January 2012, in Walnut Creek, California.

SCOPE & CONTENT:

The bulk of the collection is records of Miralin and Thoratec, the two companies Robert Harvey Founded. There is also material about other work Dr. Harvey did, and the book he co-wrote with his wife Sue.

Series I includes records of Robert Harvey's time at West Point, his M.S. thesis from Drexel, and other biographical materials.

Series II is primarily comprised of records of his career in the 1960s, when he worked for Martin Company and then Thermo Electron. There are papers he wrote, and his patent for a nuclear powered mechanical heart.

Series III contains records of Miralin/Miralin, which Dr. Harvey founded. This series includes laboratory reports, company records, and records related to the Food and Drug Administration.

Series IV includes records of Thoratec Corporation. In this series are reports, board minutes, correspondence, and company-related objects.

Series V documents Bob and Sue's projects in retirement, including teaching, writing a book and beginning a publishing company. Both the book they wrote together and a book of Sue's poetry are in this Series. There are also materials related to a law suit against Lang Publishing over copyright issues.

Series VI includes a portrait of Robert Harvey and a large color photograph of the miracle fruit, as well as early models of heart devices from the 1960s, and the farewell gift to Dr. Harvey from Thoratec, which has a model of a Left Ventricular Assist Device.

Note: This collection was given by Brian D. Harvey, in memory of his mother, Suzanne Richardson Harvey. Brian D. Harvey also gave the Suzanne Richardson Harvey papers (MS 102) to WPI in 2015.

Personal Papers

This series includes biographical material about Dr. Harvey, including degrees and certificates, and records of his time at West Point and service in the U.S. Army.

More biographical material is included toward the end of the collection, documenting his and his wife's retirement activities.

Series I: Biographical material of Robert Harvey

Container List

Container	Folder	Date	Title

Robert J. Harvey Collection

MS 66_02

Records

Most of the materials in this series are related to Dr. Harvey's work at Martin Company very early in the 1960s and then at Thermo Electron, where he worked until 1968. He continued to have some connection with Thermo Electron, and also included in this series are two paperback books of Thermo Electron's history, published in 1998.

Also part of this series are papers by Robert Harvey, early work on an artificial heart, and the patent for a nuclear powered mechanical heart granted to Dr. Harvey in 1968.

Series II: Robert Harvey's Early Work

Container List

Container	Folder	Date	Title	
Box 03	Folder 01	c. 1960	Pamphlets on Martin Airplane Design	<i>Glenn L. Martin Company</i>

Robert J. Harvey Collection

MS 66_03

Records

These records are of Miralin Company, which Robert Harvey founded. They date from the early to late 1970s.

Included are laboratory reports, marketing strategies, and legal materials, as well as promotional materials, and investment plans for harvesting the fruit. Many of the records relate to the Food and Drug Administration, and the efforts to get FDA approval to sell Mirlin.

Names changed in this group of materials. The first company name was Meditron, Inc. in 1970. Later the company name became Miralin.

The product was also known as Miraculin and Mirlin.

Most of the materials in this series are in (larger) record boxes. Generally they are in the order in which they were received, usually with earlier materials toward the beginning. Some are in their original folders. There has not been an attempt to organize them in detail.

Series III: Miralin Company Records

Container List

Container	Folder	Date	Title	
Box 05	Folder 01	April 1970	Ph.D. Thesis by Robert Harvey on 'Miracle Fruit'	<i>"Gustatory Studies Relating to Synsepalum Dulcificum (Miracle Fruit) and Neural Coding"</i>
Box 05	Folder 02	early 1970s	Miralin Laboratory Results	
Box 05	Folder 03	1970-1973	FDA Special Report	
Box 05	Folder 04-06	1970-1973	Taste testing, quality control, technical information	
Box 05	Folder 07	1970	United Nations list of Foods used in Africa	
Box 05	Folder 08-10	1971-1973	Mirlin meeting notes, company information, business plan, stock agreement	
Box 05	Folder 11-13	1970-1975	Mason Research Institute and Hazelton Laboratories test results	
Box 05	Folder 14-15	1972, 1974	Miralin marketing strategy and reports	
Box 05	Folder 16	1973-1974	Covington and Burling legal materials	
Box 05	Folder 17-19	early 1970s, 1974	Toxicity studies, bibliography, distribution plan	
Box 05	Folder 20-22	1973, 1950s-1975	Order for Miralin Quiet Diet, Reports on testing of artificial and natural sweeteners	<i>Folder 21 contains papers from the 1950s and 1960s on toxicities of various synthetic sweeteners and plants.</i>

Box 06	Folder 01-05	1973-1977	Miralin history, programs, products, business plan	<i>Folder 02 contains some FDA and legal material</i>
Box 06	Folder 06-07	1973-1974	Offering memorandum, company strategy, operation plan, licensing, etc.	
Box 06	Folder 08-09	1974, 1975	Papers re. Government of Jamaica's investment in Miralin securities	
Box 06	Folder 10-20	1971-1975	Promotional materials, including photographs	<i>Also includes Miralin Diet Plan Cookbook</i>
Box 06	Folder 21	1971-1977, 1985	MFC/FDA materials	
Box 06	Folder 22-27	1970s-2011	Correspondence, news articles, plan for film	<i>Most of this material is from 1985-2011, after the company had closed.</i>
Box 06	Folder 28	c. 1990s, 2000s	Draft of book by Robert Harvey on Miracle Fruit and demise of Mirlin	
Box 06	Folder 29	2008	Book and review: The Fruit Hunters, by Adam Leith Gollner	<i>pages 172-177 are about Robert Harvey and Miracle Fruit</i>
Box 07	Folder 01-11	1973-1975	Materials related to the Food and Drug Administration	<i>Correspondence, studies, reports, petition, general files</i>
Box 08 - 5 1/2"X12"X6" high tan box		c. 1973, 1974	Miralin samples and promotional materials	<i>booklets with recipes, jelly, fruit drops, tablets</i>
Box 09 - 5 1/2"X12"X6" high tan box		1973, 1974, 2009	Mirlin/Miralin photos, slides, business cards	<i>also 2009 CDs - BBC program, and 2009 digital file of Jamaica photos</i>
Box 27 - 12"X16" drop-front box	Folder 01	n.d.	Mirlin's first art work	<i>with note from Karl Duchek</i>

Robert J. Harvey Collection

MS 66_04

Records

The three record boxes of papers have not been organized in detail. The first two are loosely organized by date, and the third record box is records of the Thoratec Board. There are also VHS tapes, plaques and awards. Most of this material is business records, promotional materials, reports, and papers.

Series IV: Thoratec Records
